Disclosed Funding By Sector

APRIL TOP TRANSACTIONS

Resolution Bioscience Agilent Technologies has agreed to acquire Resolution Bioscience for up to \$695M in a deal intended to expand the buyer's precision medicine offerings by complementing and expanding its capabilities in next-generation sequencing-based cancer diagnostics ([GenEngNews](#)).

Impel NeuroPharma raised \$80M in its initial public offering. Founded in 2008, Impel is a late-stage pre-revenue pharma company that develops drugs for central nervous system disorders such as migraines and Parkinson's. It is the first Washington state company to go public in 2021 via a traditional IPO ([GeekWire](#)).

TwinStrand Biosciences, a gene-sequencing startup, has raised \$50M in a Series B round led by Section 32, a California-based fund focused on biotech, technology, healthcare, and life sciences. Total venture capital funding is now north of \$70M for the 6-year-old company ([GeekWire](#)).

OTHER TRENDS & HIGHLIGHTS

Seattle-Tacoma-Bellevue triangle is the fastest growing area for life sciences employment, closely followed by the Atlanta area and the Orlando-Kissimmee-Sanford triangle, according to a report from JLL. They compared employment rates in the industry between the past five years and the five years preceding that. ([Endpoints News](#)).

Prevencio has tapped Atlas' CLIA-certified molecular diagnostic laboratory in Seattle to support the commercial rollout of its HART blood test technology. The financial terms of the partnership were not disclosed ([Fierce Biotech](#)).

Gestalt Diagnostics Spokane-based Gestalt Diagnostics has raised \$2M in additional funding that will go toward hiring more employees and expanding functionality of its products. Gestalt Diagnostics builds cloud-based software that replaces microscopes, paper and manual workflows in pathology laboratories for disease diagnosis. ([Spokesman-Review](#)).
