

LIFE SCIENCE
WASHINGTON
— INSTITUTE —

Where Entrepreneurs Come First

LSW Institute is a non-profit organization that assists life science researchers, entrepreneurs, and companies in bridging the gap between discovery and commercialization. This weekly newsletter provides you with information about upcoming events, resources, and funding opportunities.

Community Connection

Boot Camp 2021

Online Sessions
Research Staff: July 19-23
Investigators: July 26-30
12:00-1:00pm PDT

Registration opens June 16

ITHS | Institute of Translational Health Sciences
ACCELERATING RESEARCH. IMPROVING HEALTH.

ITHS Introduction to Clinical Research Boot Camp

Jul 19-30, 2021 | 12:00 -1:00 PM PDT

This popular training series is open to investigators and staff from research institutions around the country. Register for free and attend the convenient online seminars 1 hour per day over 5 days. The workshops cover the design and management of clinical trials.

Research Staff track July 19-23, 12:00-1:00 PM PDT, and Faculty Investigator track July 26-30, 12:00-1:00 PM PDT.

W

UNIVERSITY *of* WASHINGTON

University of Washington Engineer's Industry Capstone Program

Proposals due: September 13, 2021

The Industry Capstone Program brings together University of Washington students and companies to tackle real-world, multidisciplinary engineering problems. Sponsors bring in projects from their companies and provide support to teams of creative, talented engineering seniors who will design and build innovative solutions.

Funding & Educational Opportunities

August 4 & 18

STARTUP CONSULTING

**EXPERT ADVICE TO TAKE YOUR
BUSINESS TO THE NEXT STEP**

LSW Institute Start-Up Assistance

We offer **pro-bono consultation** services to life science companies to help develop the Washington life science entrepreneurial community. Please email Aylin Kim, aylin@lswinstitute.org to sign up for a 1-hour session on August 4 or 18.

Life Science Washington Institute

WA INNOVATION NETWORK MENTORING PROGRAM

Applications due August 18th

[Click here for more information](#)

Email aylin@lswinstitute.org for info!

LSW Institute WIN Mentoring Program Applications - Due August 18

To date, 38 WIN graduates have raised over \$920M dollars. This milestone-based program matches you with a team of 3-6 seasoned mentors and advisors to help guide your company through critical stages at no cost!

To apply, companies should participate in a startup consult meeting (see *LSW Institute Start-Up Assistance* directly above) to learn more about the program and determine if the WIN program is a good fit. For more information, contact Aylin Kim, aylin@lswinstitute.org.

BLUE KNIGHT

Forge the Future: Expanded Pathways for BLUE KNIGHT™ Collaboration

July 22, 2021 | 10:00 - 10:45 AM PDT

BLUE KNIGHT™, a joint initiative between JLABS and BARDA offers emerging life science companies an opportunity to join the JLABS incubator ecosystem with additional engagement from BARDA. BLUE KNIGHT™ companies, selected for their mutual alignment to the Johnson & Johnson Family of Companies' and BARDA areas of interest, may also have an opportunity to receive additional support, including fee assistance and mentorship.

REGISTER TO ATTEND THIS FREE EVENT

BARDA

Biomedical Advanced Research and Development Authority

Fast-Track & Long-Term Government Funding

Up to \$750,000 available for the following critical areas of interest:

AOI #1: [ENACT \(Early Notification to Act, Control and Treat\)](#)

AOI #2: Infection Severity & Solving Sepsis

AOI #5: ReDIRECT (Repurposing Drugs In Response to Chemical Threats)

AOI #6: Beyond the Needle

AOI #7: [Immunechip+](#)

Please see the updated solicitation [BAA-20-100-SOL-0002](#) for more information, including program manager contact info. Read for updated deadlines for each area of interest.

CLICK HERE FOR MORE INFORMATION

Up to \$8M Available for 17 Long-term Areas of Interest

BARDA continues to offer ongoing, long-term support for innovations in the health security, sepsis, and infectious disease spaces.

Please refer to [the current BARDA program](#) for full details, including a complete list of deadlines.

2021 Federal Wearables Summit

August 31, 2021 | 7:00 AM PDT

The 2021 Federal Wearables Summit is a broad effort supported by several federal agencies and intended to bring the discussion on wearable sensors for monitoring health and health quality closer to all citizens. The Summit is open to the public and will address issues of interest, such as the perspectives of patients and medical care professionals, data security specialists, the regulatory bodies, and federal agencies.

Center for Neurotechnology

FDA Office of Science and Engineering Laboratories Roundtable - Part I

July 23, 2021 | 10:00 AM PDT

The FDA CDRH's Office of Science and Engineering Laboratories – Neurology Program

the Division of Biomedical Physics and Neurology.

Are you a medical device company developing a cutting-edge medical neurotechnology? In Part one of a two-part series, this interactive presentation will be an open dialog with CNT industry members engaged in neurotechnology product development as well as academic researchers that are translating and de-risking neurotechnologies. Topics will include regulatory science gaps and tools to accelerate neurotechnology medical device innovation.

FIERCE Biotech

Webinar: New Trends in Virtual Trials

July 26, 2021 | 8:00 AM PDT

Last year, clinical trial platform developer Medable raised \$91M in private funding, amid the COVID-19 pandemic, that touched off huge demand among pharma companies looking to initiate “siteless” or virtual clinical trials. Explore the role of CROs in siteless trials and the opportunities and challenges for CROs to expand their capabilities in this burgeoning area.
